Artist:	Track:	Time:	Information:
1. Batchas	Setting Sun	7:42	Inspired by the nature around me where I live now, I enjoy short evening meditative sessions on the modular. This piece is an improvisation made on a Serge Paperface system from 1978. **batchas.com**
2. Lightbath	Eternal Terrarium	6:40	A closed environment that supports life. Polyrhythmic polarities seed shifting melodic figures sent through a recursion process to resemble the self-similar patterns of growth found in the natural world. **lightbath.com**
3. Panic Girl	Dream Portal	5:20	What if you could switch from one persons dream to another in the blink of an eye? Like switching radio stations or entering a portal? Panic Girls music opens up imaginary mindscapes through the use of field recordings, catchy melodies & experimental soundscapes. **panic-girl.com**
4. Andrew Huang	Astral Plane	5:16	An exploration of a pitch sequence with occasional randomisation from Usta, voiced by Falistri through Magneto with numerous delay parameters played by hand. A simple bass voice is provided by layering tones from a Waverazor & Lifeforms SV-1. **youtube.com/andrewhuang**
5. Stefan Bojczuk	Blackstone Edge	6:31	Blackstone Edge - top of the Pennines - dark clouds pass over. **protogonos.bandcamp.com**
6. Ebcidic	Different Paces	6:33	This comes from two single take patches in one day, composed with only a Verbos Electronics modular & BAM OTO machines reverb processor, that explores the relationship between tonal movement & rhythm across different spaces. **ebcidic.com**
7. Steve Davis	Elements of Medical	7:42	Repetitive psychedelic loops are fascinating me more than ever. Currently channeling these through the Magneto and Panharmonium but then I haven't plugged in my Morphagene yet! **theutopiastrong.bandcamp.com**
8. Mattia Cupelli	ex Machina	7:44	These dwell among the blackest souls, loaded down deep by sins of different types. If you sink far enough, you'll see them all. **mattiacupelli.bandcamp.com**
9. Tim Held	Myrdet av Gud	9:14	Journey from loathsome suffering to acceptance. Life can make you work for personal growth. Its painful upsets are legion. We experience many death and rebirths. This piece portrays this process. **podularmodcast.fireside.fm**
	Total Time:	62:58
